- Sociology
- Psychology
- Economics
- Computer Science
- Other (please list)

## Vocational Qualifications

If you're studying for a Level 3 Engineering vocational qualification, please check this box and tell us what you're studying in the box which appears below.

- Level 3 Vocational study

## Career intention \*

You may or may not know where you're heading. Either way, it's useful for us to know. Use this space to jot a few notes about where you see yourself in the future. If you've particular courses, jobs or sectors in mind, tell us that. If you've plain no idea, that's absolutely fine - but tell us that too.

You're unlikely to need more than about 50 words for this.

## Your Application

We know you're on a roll with clicking boxes above, but we do need to slow you down at some point and ask you the hard questions. This is that moment.

---

## Why are you applying for the Reece Summer School? \*

Tell us why you're applying to the School, and what you hope to get out of it. You might want to think about your current relationship with engineering subjects and how you think that might change. You might have a passion for a specific subject... or you might want to explore a range of options.

- Avoid single-sentence or multi-volume answers. Aim for between about 250 and 300 words.
- Don't try to second-guess too much, just tell us what you think.

**Reference: Name \***

We'll ask for a reference from one of your current teachers. Please give their name here.

First

Last

**Reference: Email**

Contact email address for the person you've given as a reference. We'll treat this confidentially, but make sure they know you've named them!

---

## Confirm and submit your application

**Yes, I can attend \***

The 2016 Reece Summer School will take place for three weeks from 18th July to 5th August, Monday to Friday. If you're certain you can attend all these days, check this box.

Yes, I can attend from 18th July to 5th August 2016.
