

STEM PERSON
OF THE
WEEK

Mariastefania De Vido Laser Scientist

Mariastefania develops new kinds of high energy lasers. She has to be **open-minded** when creating and implementing new ideas. She is **passionate** about her work. The lasers she builds are used to create the same conditions found inside the core of planets. If Mariastefania finds her work difficult, she is **tenacious**: refusing to give up until she has solved a problem.
