

STEM PERSON
OF THE
STEM WEEK

Christos Bakas

IT Support Engineer

Christos is **collaborative**, working in a team that looks after computer equipment including digital screens and computers. He has to work **logically** and be **resilient** to take computers apart and re-build them with new parts so that images and videos run more smoothly.

Collaborative

Resilient

Logical

This week's attributes:

Collaborative

Collaborative people work together to do things.

Resilient

Resilient people can quickly recover from difficult or challenging things.

Logical

Logical people can solve problems by thinking through them in a sensible order. They understand how one action can lead to another.
