

STEM PERSON
OF THE
WEEK

Diana Kenny

Design Engineer

Diana designs and makes small water pumps. To make the pumps she needs to be **organised**. First, she sketches her idea and draws it in 3D on a computer. Then she creates a real-life version called a prototype. Diana is **imaginative** and **creative** and looks for ways to improve her prototypes. When the pump has been tested, the design is sent to a factory to be manufactured.

STEM PERSON
OF THE
WEEK

Diana Kenny

Design Engineer

Like Diana, I am...

Creative

I can make new things and have original ideas.

Empty dotted box for writing.

Imaginative

I can think of new and interesting ideas.

Empty dotted box for writing.

Organised

I am good at planning to make sure I finish things.
