These STEM focussed questions are designed to use alongside the questions you would usually ask when reading a story.

Before you start reading, you could ask:

- Have you ever been to the doctor? Why did you go?
- Have you ever taken any medication? What was it for? Was it pills, liquid, cream, an injection, an inhaler...?
- Look at the picture on the front of the book: what is Topsy doing? What is she using (stethoscope)?

While reading the story, you could ask:
