

My wind chart

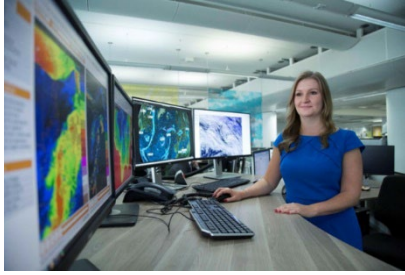

Today is

The wind is blowing this way:

The wind is blowing this hard:

What is a meteorologist?

Meteorologists use special equipment and make forecasts of what the weather is going to be like.

Meteorologist are:

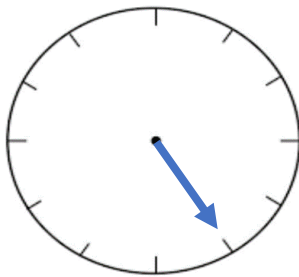

Curious and want to know what the weather will be like in the future.

Observant when they look at what the weather is like today.

Collaborative as they work together with other people to get their job done.

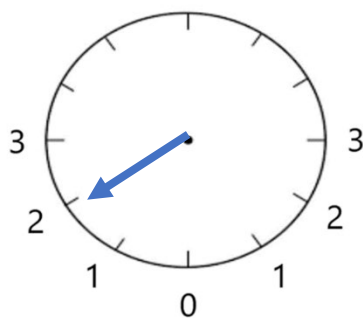

How to use your wind sock

If you have a garden or yard, hang your wind sock from a pole, tree or washing line where it has space to blow. If you don't have an outside area, hang it from a window.

Recording the direction of the wind

Look up at your windsock from below. Draw an arrow on the circle to show the way the plastic strips are blowing.

Recording how hard the wind is blowing

Look at your windsock from one side to see how much the wind is blowing the plastic strips. 0 would be hanging straight down, 3 would be blowing straight out to the left or right.
