

# The Pharmacist Game

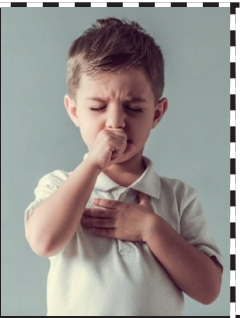

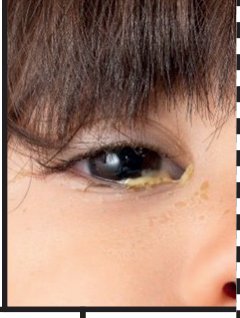

**nustem**

## How to play

- Cut out the 24 prescriptions cards along the dotted lines.
- Shuffle the cards and place them face down on prescriptions.
- Find a counter for each player and place them on start.
- Take it in turns to take a card, read it out and then move along the board the number of spaces indicated by the number of green crosses on each card.
- Place completed prescription cards on the dispensed space.
- The first player to reach the finish space wins.

<p>You dispense a prescription for tablets for an allergy.</p>		<p>You sell your patient some nasal spray to help clear their nose.</p>		<p>You sell your patient some cough mixture to ease their cough.</p>		<p>You prescribe your patient some capsules to treat their earache.</p>
