

How to make a kite

You will need:

- Printed kite sheet or A4 paper
- A kebab stick
- Small lump of sticky tack
- Masking or sticky tape
- Scissors
- 3 – 4 metres of kite string or strong thread
- A lolly pop stick
- 2 metres of ribbon or a plastic bag cut into strips

*Please supervise
children using kebab
sticks, string and
ribbon at all times!*

1. Print out the kite sheet

2. Put the orange circles on top of your sticky tack.

3. Poke the kebab stick through the orange circle into the tack. Repeat with the other circle.

4. Fold the paper in half along the black dashed line.

How to make a kite

5. Take the top left corner and fold the paper back along the orange dashed line.

6. Turn the paper over and fold back the top corner along the orange dashed line.

7. Unfold the top corner.

8. Turn the paper over.

9. Stick tape along the centre fold.

10. Place the kebab stick across the kite, touching both corners.

11. Carefully snap the kebab stick so that it fits across the kite.

12. Cover the jagged end of the kebab stick with tape.

13. Use tape to attach the kebab stick to your kite.

14. Cut 3 to 4 metres of string and attach one end to your lolly stick with tape.

15. Wrap the string around and around the stick.

16. Thread the end of your string through the holes in the orange circles.

17. Tie the end of the string to the string on the other side of the holes.

18. Secure with three to four knots.

19. Cut two 1 metre lengths of ribbon and attach to either side of your kite. Decorate.

20. Find a large space, unwrap about 2 metres of your string and run to fly your kite!
